YOUR PERSONAL FIT IN 3 EASY STEPS

Step 1. Measure

How do you Measure?

With your right wrist on the baseline of the hand chart, lay your entire hand over the diagram. The tip of your middle finger will point to your SmartFit® color.

Step 2. Adjust

The next step is to adjust the color wheel* on your SmartFit® product to your specific color, and you're ready to go.

* Not all SmartFit® products have a color wheel; please make sure you read the instructions to understand how to adjust each SmartFit® product.

Step 3. Fit

The final step is to validate the fit of your SmartFit® product at your workstation. Because we make many different SmartFit® products, please refer to the user guide in each product box.
